## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 9-11 and 13-14 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for forming a mark on the surface of the base, does not support the claimed limitations as recited in the base claim 9, which include the provision of a mask.

Claim 9, as amended, recites the following combined limitations including "forming a **mask** on the surface of said plating layer (emphasis added)" and "providing a concave portion or a concavo-convex portion **on the surface of the base** by laser marking which penetrates the mask (emphasis added)", where such combination is not supported by the specification. The only instance where the mark having a concave portion or a concavo-convex portion is provided on the surface of the base by laser marking, is shown in Example 8, and corresponding Figure 5, and wherein the mask is not used. Each of the examples 10 through 12 (and corresponding Figure 7) discloses the use of the mask to form marks, where "[W]ith respect to the depth, the mark had a concave portion having the **bottom located around 2 to 5  $\mu$ m from the surface of the base** (emphasis added)". It is clear that Applicants do not recommend forming marks on the surface of the base by laser marking while using the mask.

Claims 10-11 and 13-14 are dependent from claim 9 above, and include every element and limitation of claim 9, and are therefore rejected for the same reason as above.

Due to the uncertainty of the limitations, claims 9-11 and 13-14 are deemed to be so undefined as to preclude consideration in view of the prior art.

***Response to Arguments***

3. Applicant's arguments with respect to claims 9-11, 13-14 have been considered but are moot in view of the new grounds of rejection presented above.
